** Trust fund(s) expected to remain solvent throughout the long-range projection period.

NA-Not available.

Source: 1983-2012 OASDI Trustees' Reports and information provided by the Social Security Administration. From 1983-1990, two intermediate forecasts were prepared (II-A and II-B). The intermediate II-B forecast is considered the one more closely aligned with traditional intermediate forecasting.

This table was updated on September 4, 2012, for the 2012 version of the House Ways and Means Committee Green Book.
